### Definitions

"Closing Price" means the last trade price reported [on NYSE Arca, Inc.] as of the date shown.

The Intraday Intrinsic Note Value at any time on any date of determination reflects the Principal Amount of \$20 per note, as adjusted by the cumulative performance of the Index (calculated using the level of the Index at that time rather than the VWAP Level) from the Initial VWAP Level, plus the Stub Coupon Amount on that date, less any Investor Fee Shortfall with respect to that Stub Coupon Amount. In addition, if the Coupon Ex-Date with respect to the Coupon Amount as of the immediately preceding Coupon Valuation Date has not yet occurred, the Intraday Intrinsic Note Value will also include any Unpaid Coupon Amount. **Because the calculation of the Intraday Intrinsic Note Value is updated every 15 seconds on Bloomberg, the level of the Index (which is updated every 15 seconds on Bloomberg) is used instead of the VWAP Level (which is calculated only once each day).**

The Daily Closing Intrinsic Note Value shown above is the final Intraday Intrinsic Note Value as of the date shown above, calculated by adjusting the principal amount of \$20 per ETN to reflect the cumulative performance of the Index (calculated using the closing level of the Index on that date) from the Initial VWAP Level and the Stub Coupon Amount on that date, less any Investor Fee Shortfall with respect to that Stub Coupon Amount. In addition, if the Coupon Ex-Date with respect to the Coupon Amount as of the immediately preceding Coupon Valuation Date has not yet occurred, the Intraday Intrinsic Note Value will also include any Unpaid Coupon Amount. **The payment at maturity or upon early repurchase or redemption of the ETNs will be determined based on the Closing Intrinsic Note Value calculated using the average VWAP level of the Index over a five-day Measurement Period and not based on any Daily Closing Intrinsic Note Value.** The trading price of the ETNs at any time may vary significantly from the Daily Closing Intrinsic Note Value

"Number of Notes" means the total number of notes that have been issued, including those held by JPMorgan Chase & Co. or one of its affiliates.

"Number of Notes held by JPMorgan" means the total number of notes that are currently held by JPMorgan Chase & Co. or one of its affiliates. Sales of these notes may be discontinued at any time.

"Number of Notes Outstanding" means the Number of Notes minus the Number of Notes held by JPMorgan.

"Market Capitalization" means the Number of Notes Outstanding multiplied by the Closing Price.

"Total Notional Assets" means the Number of Notes Outstanding multiplied by the Daily Closing Intrinsic Note Value.

"Last Coupon per Note" means the most recent Coupon Amount paid by the issuer of the Note to investors. Please see the relevant pricing supplement for the definition of Coupon Amount.

"Last Coupon Ex-Date" means the "ex-date" with respect to the most recent Coupon Amount, as more fully described in the relevant pricing supplement.

"Fee" refers to the per annum fee used to calculate the Accrued Investor Fee as described in the relevant pricing supplement.

Please refer to the relevant pricing supplement for capitalized terms used in this document without definition.
